BACK

FRONT

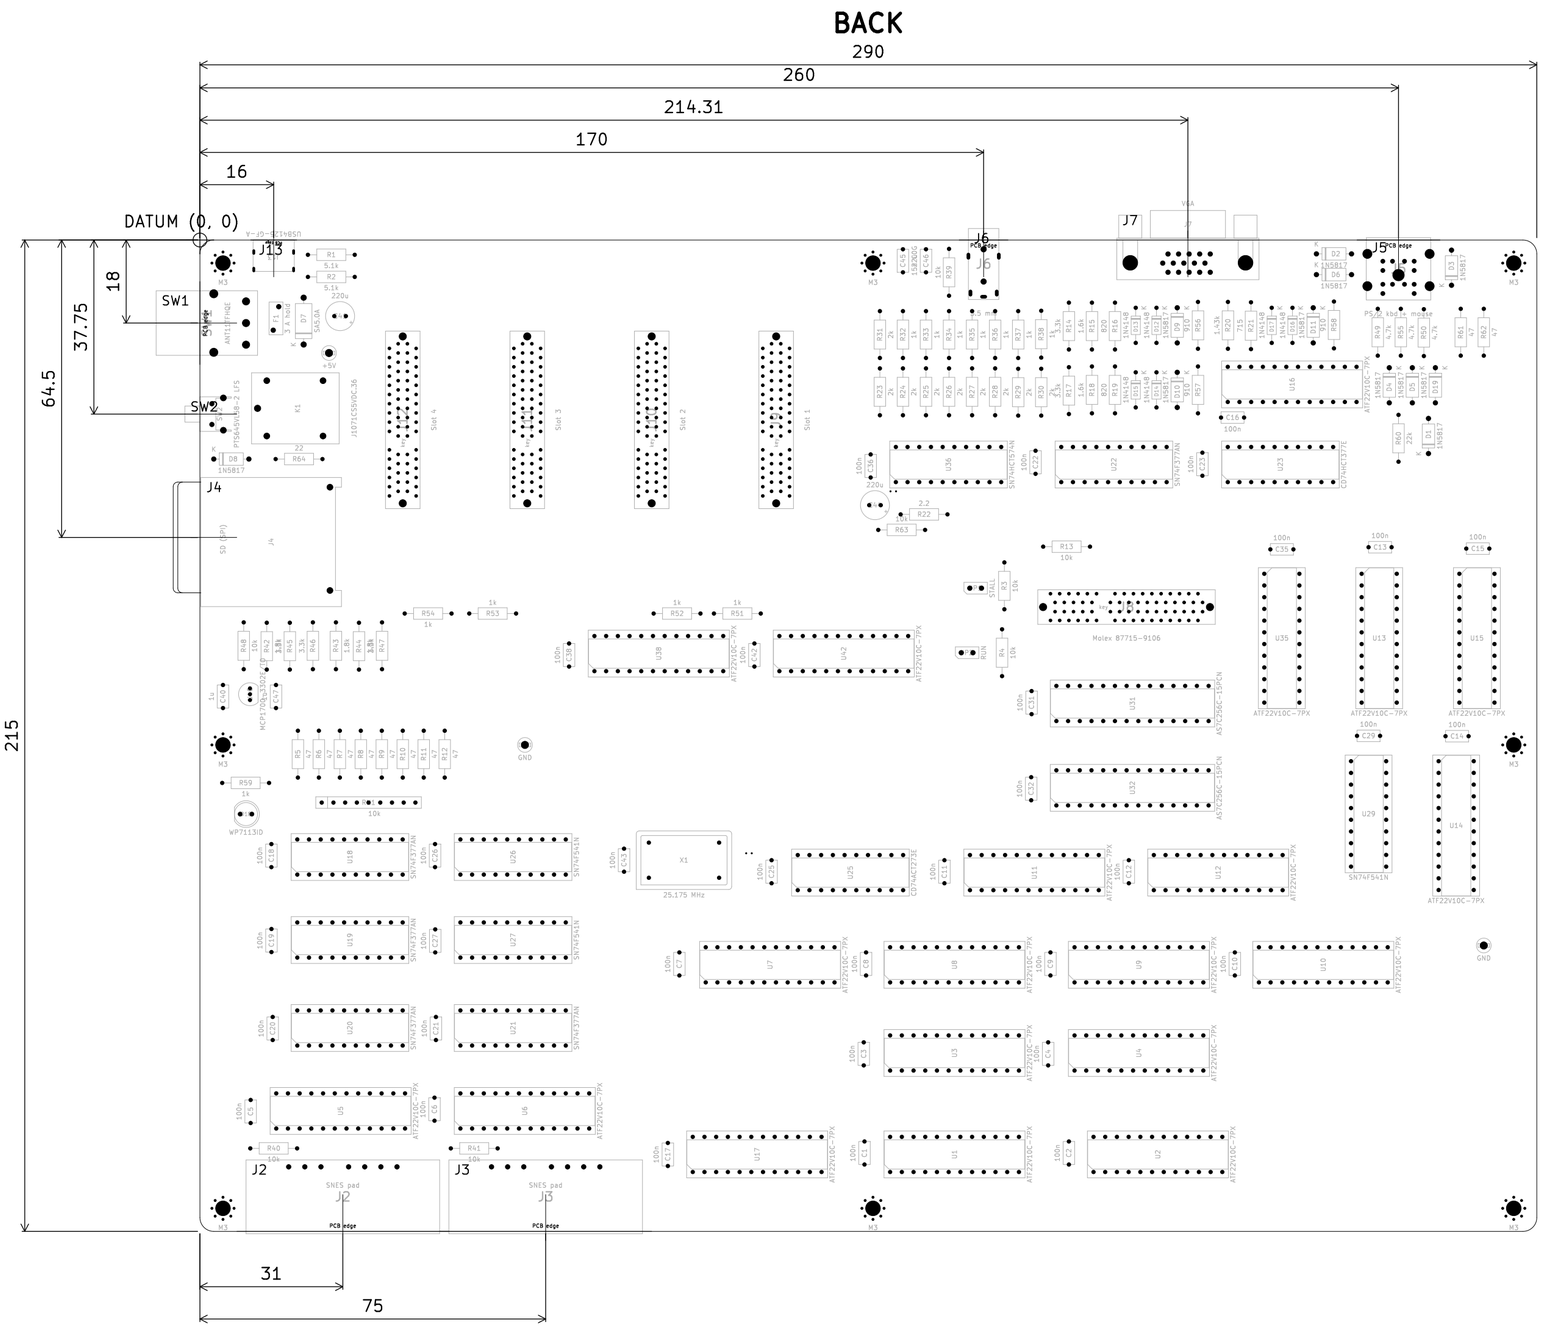

Board 290 x 215 mm, 1.6 mm thick, 4 layers, corner radius 3 mm. Mounting holes 5 mm from the edges.

Generated by src/scripts/gen_board_dimensions.py from kicad/placard.kicad_pcb
All dimensions in mm. Datum: back left corner of the board outline.
Sheet 1 of 3: board outline and mounting holes
PCB PLC-1001, assembly PLC-2001

Sheet:
File: page1.kicad_pcb

Title: Placard main board: dimensions

Size: C	Date: 2026-11-02	Rev: A
KiCad E.D.A. 9.0.8		Id: 1/1

Ref	Part	Edge	Center	Opening	Overhang
J13	USB-C power	back	16	10	0
J6	Audio line out	back	170	10.6	2.5
J7	VGA	back	214.31	30.85	6.4
J5	PS/2 (2 ports)	back	260	18	0.5
SW1	Power switch	left	18	18	9.5
SW2	Reset button	left	37.75	7.5	3.26
J4	SD card	left	64.5	24	0
J2	SNES pad 1	front	31	46	0.5
J3	SNES pad 2	front	75	46	0.5

FRONT

Center: from the datum along that edge (back and front edges: from the left edge; left edge: from the back edge).
Opening: panel cut-out width from the footprint's drawing layer, else the body width (VGA: shell width about the screw holes).
Overhang: how far the body sticks out past the board edge.

BACK

FRONT

Boxes: space each card or cartridge shell takes at the board, plus 1 mm (the slot footprints' courtyards). Thin lines: connector center lines.
Cards and the cartridge stand up from the board; expansion cards run front to back and may carry a back-panel connector past the back edge.
